“3 Lindsay Avenue Darling Point has exchanged for more than \$60 million, ranking it among the country’s top nine house sales, and the first at the level outside of Vaucluse and Point Piper. Despite being listed openly with agents in the first years of the campaign, six months ago the campaign was handed exclusively to Alison Coopes, of her eponymous boutique agency.”

“To protect the price of your property it is essential to control information. Consistency is everything. Control diminishes with the number of people telling the story. In most agencies, 10 people tell the story. Our results show that 1 person is better than 10.”

THE NSW WINNER OF THE
INVESTORS CHOICE AWARDS

A long, narrow swimming pool with a waterfall feature, set against a backdrop of lush greenery and a sunset over the ocean. The pool is the central focus, with water cascading over a low wall. The surrounding area is filled with various plants and trees, including a large pine tree on the left. The sky is a mix of orange, pink, and blue, indicating a sunset. The ocean is visible in the distance on the right side. Two thin pink lines are drawn diagonally across the image, one from the top right and one from the middle left, intersecting near the text.

A large, multi-story house with a swimming pool in the foreground and lush landscaping. The house is a grand, classical-style residence with a prominent central tower and a balcony. The pool is a bright blue, and the garden is filled with various plants and trees. A pink diagonal line runs across the image from the top left to the bottom left.

A modern glass-walled balcony at dusk. The balcony has a white railing and is furnished with a green tufted sofa and a brown armchair. Two floor lamps with white shades are lit, casting a warm glow. The background shows a city skyline at twilight, with the sky transitioning from blue to orange and red.

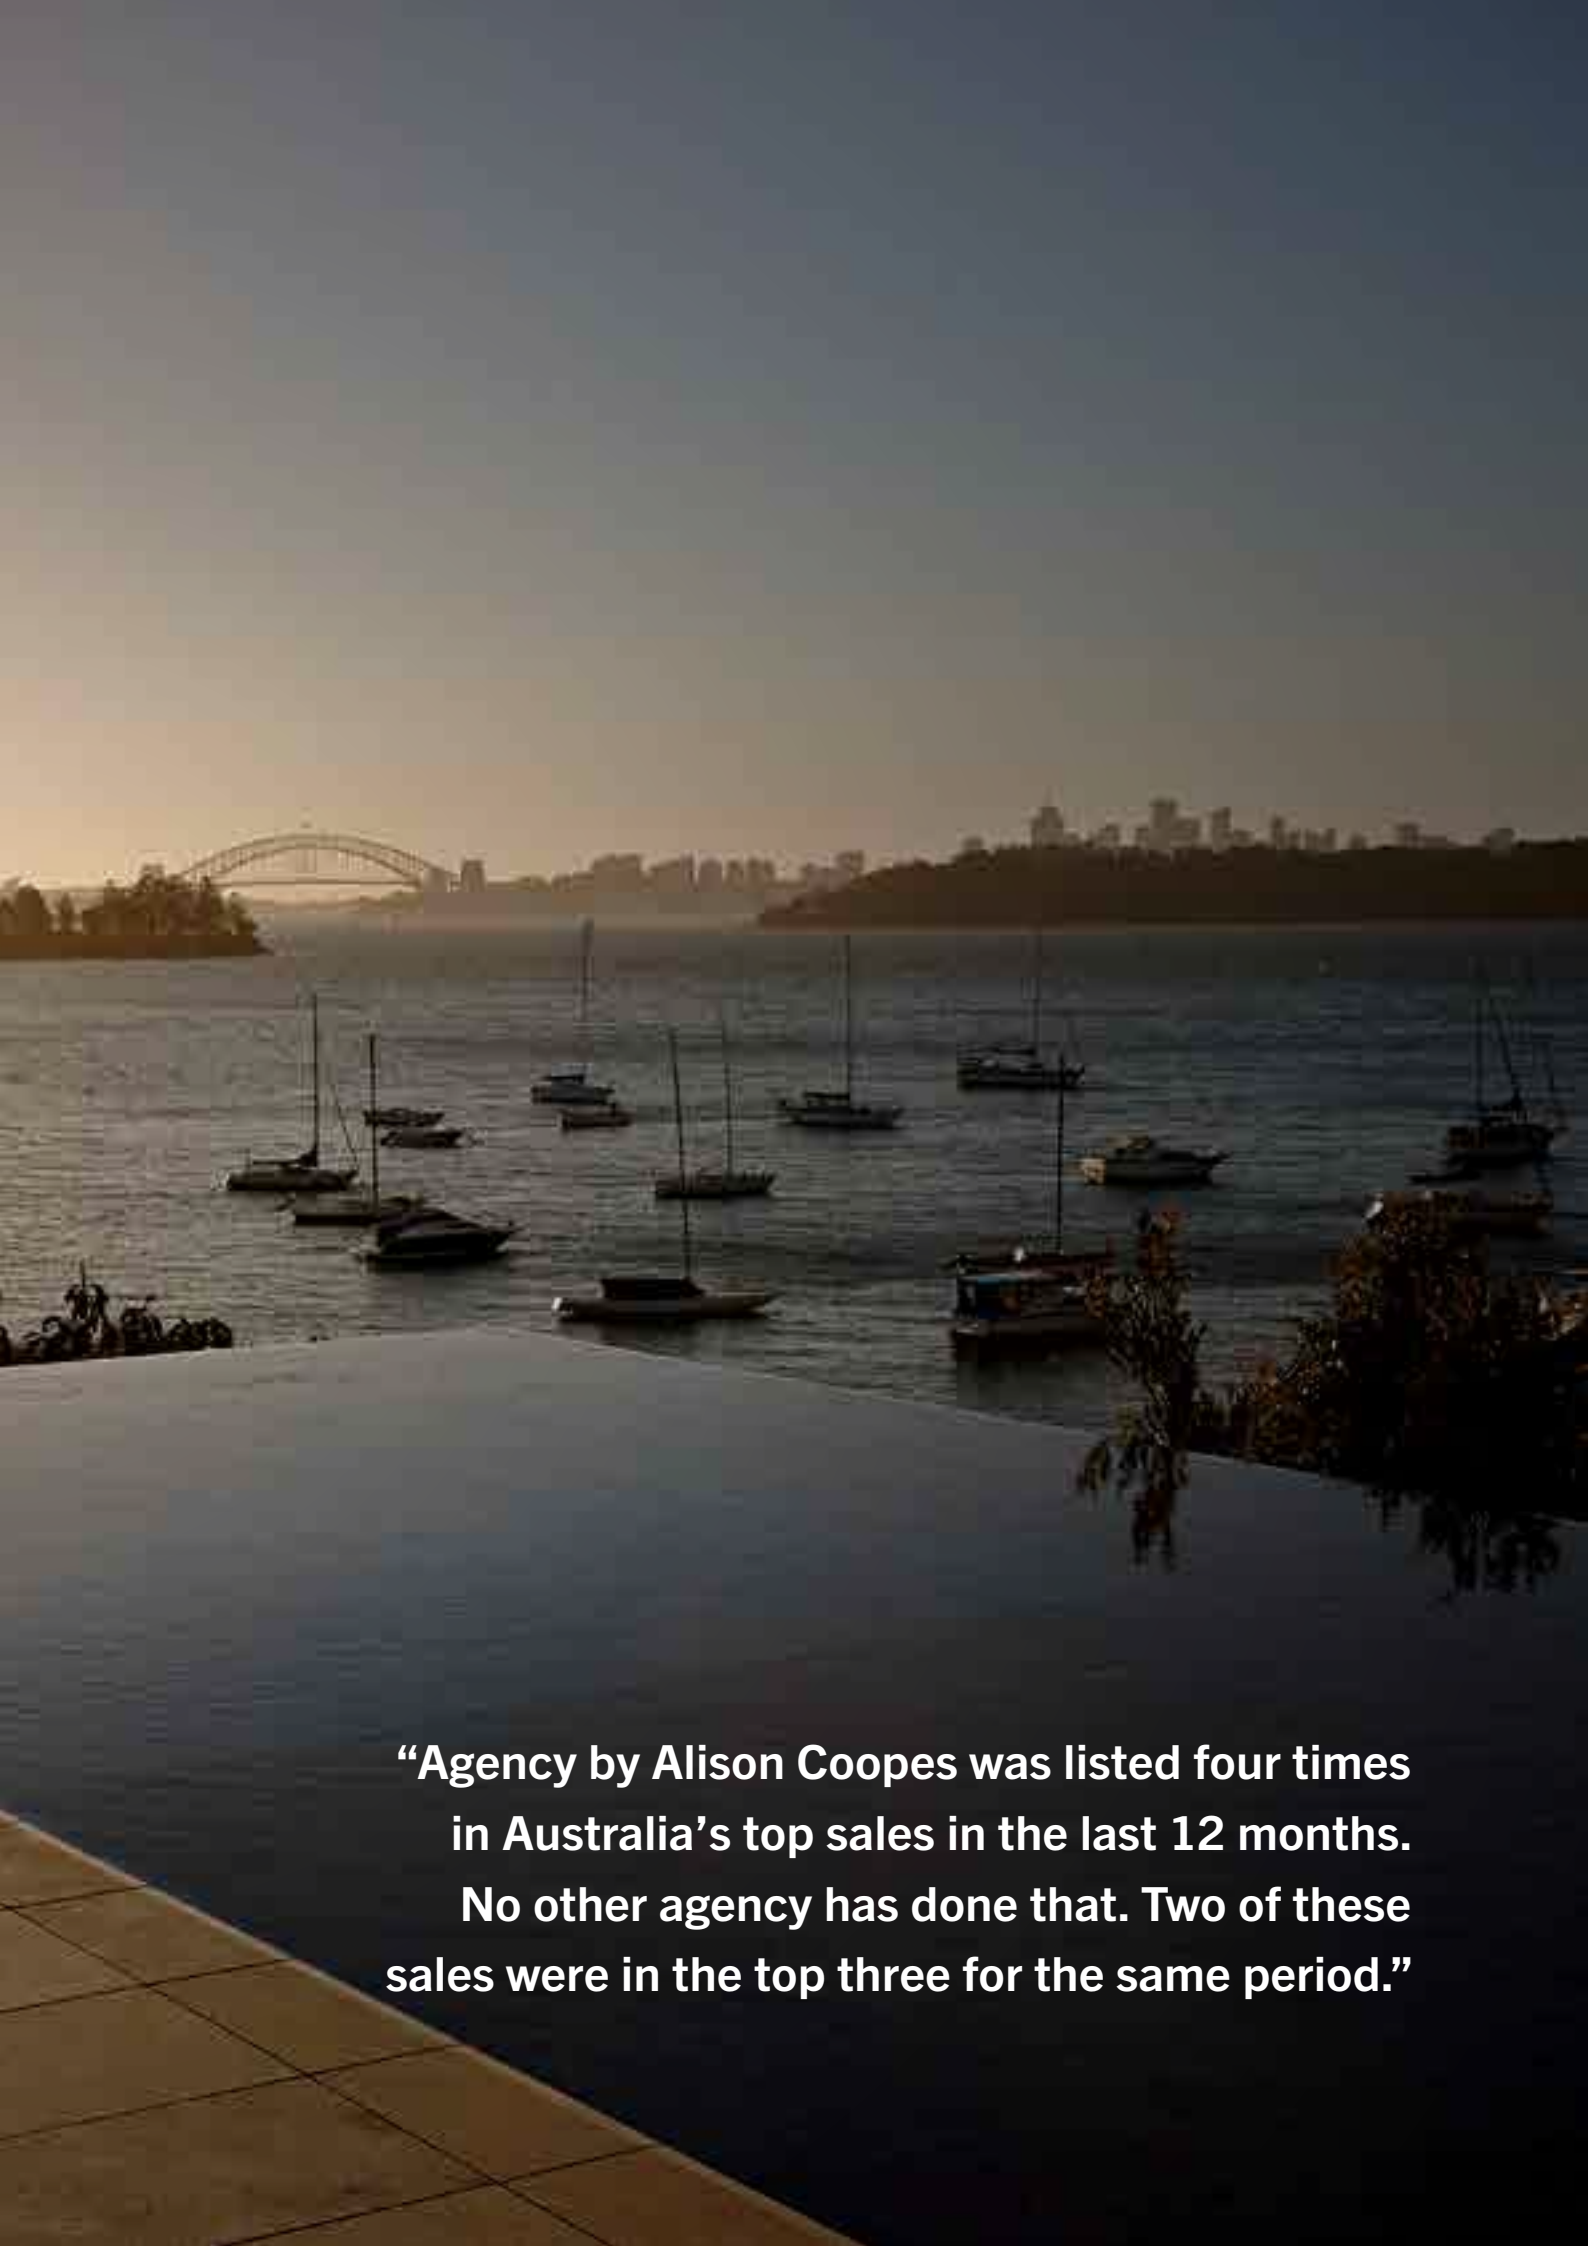

Agency by Alison Coopes made its first record breaking sale by rejecting the real estate formula. Then we made some more. Then a whole lot more. Sure it's harder. But it's worth it.

We use highly skilled advertising creatives, not real estate writers. Architectural photographers, the best there are. And most importantly, the knowledge that nothing exceptional ever came from an average marketing idea.

We don't use those.

*WE'VE MADE
A LOT OF PEOPLE
VERY HAPPY*

**“Agency by Alison Coopes was listed four times
in Australia’s top sales in the last 12 months.
No other agency has done that. Two of these
sales were in the top three for the same period.”**

THE STORY BEHIND US

Our intention is always to make a sale and deliver the best possible result for our vendors. We work seven days a week – Holidays and weekends off are simply not an option when we are in the sale process!

We ensure consistent and reliable feedback so that our vendors are not left “second guessing”.

We “live” with the buyers until we have understood or overcome any concerns they may have in proceeding to purchase your property.

We anticipate and listen carefully to the concerns of our buyers and sellers, and always work to respond and problem solve to reach a successful outcome. We understand that without resolution there is no sale...

Our Agency requires and expects perfection and a more unique creativity, from our service providers for print media, internet and social media, copywriting, professional photography, and ad agency graphics, so that we are able to best represent the value and inherent qualities of each unique property. We utilise the most skilled, professionals to ensure 100 percent of our marketing strategies do not lose their impact over the course of the marketing campaign.

As a result of consolidated effort with our creative teams over many years, we have now ensured a point of difference when advertising any property we have for sale. We have a real estate brand that stands alone and has established its identity as representing the best properties (unique, rare, premium, quality, real estate assets) across Sydney.

We have established a strong, polished social network stream so that we can “sell” even when we are sleeping. Our connections to databases of expats and high net worth individuals locally, are second to none.

We would encourage you to review our LinkedIn network as a sample of connections and style of marketing utilised to sell your home.

My understanding is Agency by Alison Coopes has the highest number of LinkedIn connections outside of the estate agency sector i.e. there isn't any other real estate agent in Sydney that has over 5000 LinkedIn connection made up of expats, bankers, private equity firms, partners of law firms, active residential investors, CEOs, BRW rich list profiles, and or any other high net worth individuals within our community.

Our values are not based on the immediacy of result. We look to build long term client relationships and as a result of this over 95 percent of our business is based on client referrals.
